

TenderHub Cloud Infrastructure & Operating Costs

Financial Breakdown, Vendor Pricing Models, and Capacity Forecasts

Author: Lead Systems Architect Date: October 2026 Classification: Internal Technical Manual Version: 2.4.0

ABSTRACT

Line-by-line financial assessment and capacity planning for TenderHub production infrastructure, databases, third-party APIs, and scaling tiers.

1. Operating Cost Forecast Summary

TenderHub is engineered for high operational leverage with flat-cost storage (Cloudflare R2) and serverless databases.

Service	Vendor	Monthly USD	Monthly INR	Role
API Server	Render	\$7.00 - \$25.00	₹585 - ₹2,090	Express 5 REST API & Cron Jobs
Frontend CDN	Render / Vercel	\$0.00	₹0	React 19 SPA static hosting
Primary DB	MongoDB Atlas	\$0.00 - \$9.00	₹0 - ₹750	Core data persistence
Cache & Queue	Upstash Redis	\$0.00 - \$5.00	₹0 - ₹420	Stats caching & rate limiting
Object Storage	Cloudflare R2	\$0.00 - \$1.00	₹0 - ₹85	NIT / BOQ PDF files (\$0 egress)
WhatsApp Alerts	AiSensy	\$15.00 - \$25.00	₹1,250 - ₹2,100	Contractor tender notifications
CAPTCHA Solver	CapSolver	\$2.00 - \$4.00	₹165 - ₹335	Crawler portal bypass
AI Inference	Google Cloud	\$5.00 - \$12.00	₹420 - ₹1,000	Gemini 1.5 Flash token usage
TOTAL BASELINE	All Vendors	~\$29 - \$81	₹2,420 - ₹6,780	Complete Platform Operation

2. Unit Margins per Subscriber

Plan Tier	Retail Price	Direct Infrastructure Cost	Net Margin
Pro Monthly	₹999.00	~₹37.50 (DB, WhatsApp, Razorpay)	₹961.50 (96.2%)
Pro Annual	₹2,999.00	~₹270.00	₹2,729.00 (91.0%)
AI Bidding Pro	₹2,499.00	~₹69.00 (Gemini, Copilot, Razorpay)	₹2,430.00 (97.2%)
